GLOBAL SPECIALIST RECRUITMENT

Global Recruitment & Executive Search | Cyber Security Specialists

CYE

 Website

 LinkedIn

CYE has recently announced their acquisition of Cyberillum’s vulnerability analysis platform, Baseline. This integration will be implemented into CYE’s CRQO platform, Hyver. It will empower automated generation and prioritization of attack routes, leveraging Baseline’s context-aware algorithms.

They have successfully cemented themselves as the industry leader in cyber risk quantification and optimisation being named in the Enterprise Security Tech Cyber Top 20 awards list in August this year. They have been using their recent recognition and advancement of their Hyver platform to grow the company with new hires, including hiring for a new CRO.

Exabeam

 Website

 LinkedIn

Exabeam, a global leader in cybersecurity, gained recognition as the 2023 Google Cloud Technology Partner of the year for Security Analytics. Recently, Exabeam announced the expansion of this partnership, focusing on the development of generative AI models within its New-Scale SIEM product portfolio. This advancement will propel Exabeam into becoming completely cloud native, promising unmatched performance.

This follows the recent promotion of Adam Geller from CPO to CEO. Adam was instrumental in the strategic shift towards cloud nativity, firmly charting the course for growth and transformation within the company under his leadership.

Irdeto

 Website

 LinkedIn

Irdeto are the world leader in digital platform cybersecurity and have recently added sports streaming platform DAZN to their list of customers relying on TraceMark, Irdeto’s award-winning forensic watermarking solution, to enhance its security against piracy.

The company’s CEO Doug Lowther noted that “Premium live sports is one of the biggest forms of content driving the OTT live streaming industry” highlighting the significance of this collaboration for Irdeto’s growth within the industry.

IronScales

Website

LinkedIn

Leading enterprise cloud email security platform, IronScales have announced the launch of their GPT powered Phishing Simulation testing and a new accidental data exposure (ADE) capability.

Eyal Benishti, CEO of IronScales identified “a tremendous uptick in customers seeking tools and technologies to counter the intensifying threats posed by socially engineered attacks such as spear phishing and business email compromise.” With this advancement in their AI portfolio, it will help employees personalise cyber training and position themselves to be able to combat the rise in these attacks.

NextDLP

Website

LinkedIn

In 2022, Next DLP, the market leader in data loss prevention, achieved record-breaking revenue growth, boasting a remarkable 200% increase in revenue. Furthermore, the company successfully expanded into the North American market by strategically placing several key senior positions, including the appointment of Connie Stack as CEO.

This has set them up to be in the strongest possible position heading into 2023, where they have been named as a representative vendor in the 2023 Gartner Market Guide for Data loss prevention. Head of product, John Stringer noted that this ‘validates their approach to data protection’.

RedSeal

Website

LinkedIn

Under the dynamic leadership of newly appointed CEO Gregory Enriquez, RedSeal is embarking on an exciting trajectory of growth and innovation.

The company have recently introduced support for third-party firewalls in public clouds, seamlessly integrating with industry leaders such as Palo Alto Networks and Cisco. This will empower enterprises to understand and take control over all attack paths, stopping breaches. Enterprises will benefit from continuous compliance, proactive risk prioritization, advanced attack path analysis, and comprehensive network visibility. Ensuring this compatibility gives RedSeal a competitive advantage within the industry.

ReliaQuest

 Website

 LinkedIn

Tampa Bay start-up, ReliaQuest have been named a Customers' Choice in the Gartner Voice of the Customer for MDR services report. They were rated 4.8/5 on overall satisfaction levels and 94% of reviewers said they would recommend ReliaQuest to their peers.

In May this year they acquired agent software assets and the associated engineering team from EclecticIQ to add speed and capability to their security operations platform, GreyMatter, enabling ReliaQuest to quickly respond to new and emerging technologies.

ReliaQuest have also recently announced their partnership with Google Cloud to enhance cybersecurity for global enterprises.

SwimLane

 Website

 LinkedIn

2022 was a record year for Swimlane with 123% new ARR growth and 82% YoY increase in new customers, including 14 new Fortune 500 accounts. This success has propelled them into this year where they have gone on to expand business into the Asia-Pacific Japan region with the opening of a Tokyo office.

So far this year, Swimlane have also been recognised by Quadrant as the leader in Security Automation with Highest Tech Excellence rating, a credit to their product development team.

Wib

 Website

 LinkedIn

In February this year, Wib revealed a \$16 million investment led by Koch Disruptive Technologies (KDT) to bolster their comprehensive API security platform and accelerate expansion efforts across the Americas, UK and EMEA regions. To further these expansion plans, they have recently appointed Kite as their first distribution partner for the UK & Ireland, increasing their market reach and customer acquisition.

In addition to this, the company has recently unveiled a new Compliance Module for its API Fusion Platform, which will address the demands on organisations to meet strict API compliance standards.
