

Cyber Security Industry Snapshot

September's Cyber Shifts & a Look Ahead to IT-SA

September brought a wave of AI-driven developments in the cybersecurity space, spotlighting advancements in forensic intelligence, SME security solutions, and AI-enhanced threat detection. As we reflect on these updates, we're also looking ahead with anticipation to major announcements from IT-SA, as well as key takeaways following ICE London. The landscape continues to evolve, with resilience, automation, and human-AI synergy at the forefront.

DARKTRACE

Darktrace Launches Cyber Forensics Module

Darktrace has introduced “Darktrace forensics,” a powerful new feature in its cybersecurity platform that enables security teams to collect and analyse data from devices involved in potential threats.

The tool facilitates accelerated investigations and incident response, with key capabilities like one-click data acquisition and evidence-grade reporting.

This advancement signals a shift toward more proactive and streamlined forensic readiness within enterprises.

Kikimora

Kikimora Unveils AI-Powered Platform for SMEs

Kikimora has launched a new AI-driven cybersecurity solution tailored for small and medium-sized enterprises.

The Kikimora Agent platform combines real-time monitoring with threat detection, designed to simplify security management for organisations with limited resources.

With accessible pricing and user-friendly tools, the platform empowers SMEs to bolster their cyber defences without needing large in-house teams.

Human and Machine Identities: The Security Challenge – Episode 47 – Ashish Shah, Co-founder of Andromeda Security

Dive into the evolving identity security landscape with Ashish Shah, Co-founder of Andromeda Security. From overprivileged access risks to AI in cloud environments, Ashish breaks down today's biggest challenges. Tune in to hear his journey and learn how modern enterprises can tackle both human and non-human identity threats head-on.

Passionate about Cyber Security, Defense & Risk Management?

We feature conversations with industry experts in the Cyber Security sector, including C-suite executives, thought leaders and innovators from global organisations.

From exploring AI in security, discussing cloud protection strategies, or examining the challenges of regulatory compliance, The Cyber Security Matters Podcast keeps you informed and connected to this rapidly evolving sector.
